

Feeding Quantity Calculator Report

1. Basic Information

Pet name	
Type	Cat
Body weight (in kgs)	9.5
Gender	Male
Breed	
Activity level	1
Age (in years)	None

2. Medical History

Present illnesses or diseases	
Last deworming date	None
Appetite status	
Gastrointestinal health status	
Renal health status	
Past treatment	
Past illnesses or diseases	

3. RER (Resting Energy Requirements)

RER (in kcal/day)	316.3536543453499
-------------------	-------------------

4. Liquid Food Information

Cocotail Rx / Moist Food Pack size (in ml)	100
Kcal value as per the label information (in kcal)	120
Warm water is required for blending with food (in ml)	30.0
Moisture content in Cocotail Rx (in %)	70
Method of food delivery	None

Feeding Quantity Calculator Report - Continued

5. Water Requirement

Expected daily fluid volume per day (in ml)	570.0
---	-------

6. Feeding Frequency

For Dogs: 4 meals/day (Every 6 hr)

For Cats: 6 meals/day (Every 4 hr)

For day 1, (in ml/meal)	17.13582294370645
For day 2, (in ml/meal)	28.55970490617742
For day 3, (in ml/meal)	57.11940981235484

7. Additional Water Requirement (to meet daily fluid volume)

Flush required after every food delivery (in ml/flush) : 15

For day 1, (in ml)	400.9115864136625
For day 2, (in ml)	348.1859773561042
For day 3, (in ml)	216.37195471220844
